

DEVELOPMENT SERVICES FOR EYE-IMPLANTS

**ARE YOU LOOKING FOR A PARTNER WITH PLENTY OF EXPERIENCE AND COMPETENCE –
SOMEONE WHO IS ABLE TO SUPPORT YOU WITH THE DEVELOPMENT AND CREATION OF EYE IMPLANTS?**

- » CONSULTING
- » DEVELOPMENT
- » CONSTRUCTION
- » PROTOTYPING
- » OEM-MANUFACTURING
- » TOOL MANUFACTURING
- » RAW-MATERIALS

We pave the way ...

We accompany you all the way – from the perception of your idea, through the planning, designing and constructing the prototype, all the way to the finished product.

Since the formation in 1955, our company has developed into one of the leading engineering specialists for eye implants.

As an owner-managed company, we have short decision paths, enabling us to act independently, quickly and flexibly.

We keep close contacts with our clients, offering continuous support and are always in a position to successfully meet the individual needs for development, construction and production.

- » **Successful innovations since 1955**
- » **We set milestones in ophthalmic progress**
- » **Expertise in German Engineering**
