

QUALITY POLICY AND CODE OF CONDUCT

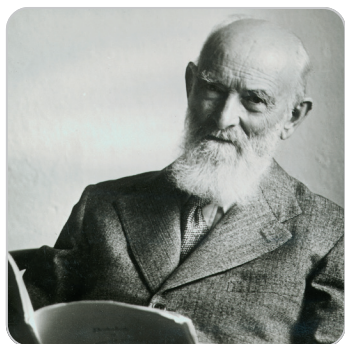

„THE FAIREST WAY OF DOING BUSINESS IS ALSO THE MOST CONSISTENT.“

ROBERT BOSCH

The tradition of MORCHER® GmbH as one of the oldest and most respected international manufacturers of Intraocular lenses, dates back to 1950. As a leading German manufacturer, the company wants to offer its national and international customers superior quality at economically sound conditions.

QUALITY POLICY

MORCHER® stands for innovative and high-quality products and solutions in medical eye surgery. Our quality management system is our navigation system for creation of value, ensuring that we design and manufacture medical devices with high medical benefits. We always commit ourselves to fulfill the requirements of our markets and maintaining, evaluating and developing the effectiveness of our processes. Quality goals are our guiding principles in daily activities and help us to develop the organization in a transparent way for all involved parties. Our risk management policies are consistent with regulatory requirements and ensure our products are state of the art.

QUALITY POLICY AND CODE OF CONDUCT

CODE OF CONDUCT

- We adhere to the Value Code (WIPN - FO02245) for fair business practices, regardless of the influence of politics and religion.
- We always put the patient and customer at the center of our activities.
- We respond to the wishes of our customers and offer solutions for the realization of market-driven products.
- We take our responsibility as a medical device manufacturer very seriously.
- We respect laws, do not participate in price agreements and do not receive any donations in connection with our business activities.
- As a company, we face the demands of the world market and do not lose sight of the principles of "common sense".
- We promote business transparency and open communication.
- We value each other and respect each other, together we ensure our success.
